

Invitation to CST Seminars

Monday Sep the 26th, 10-11 AM

Biocenter 3, Viikinkaari 1, room 3402

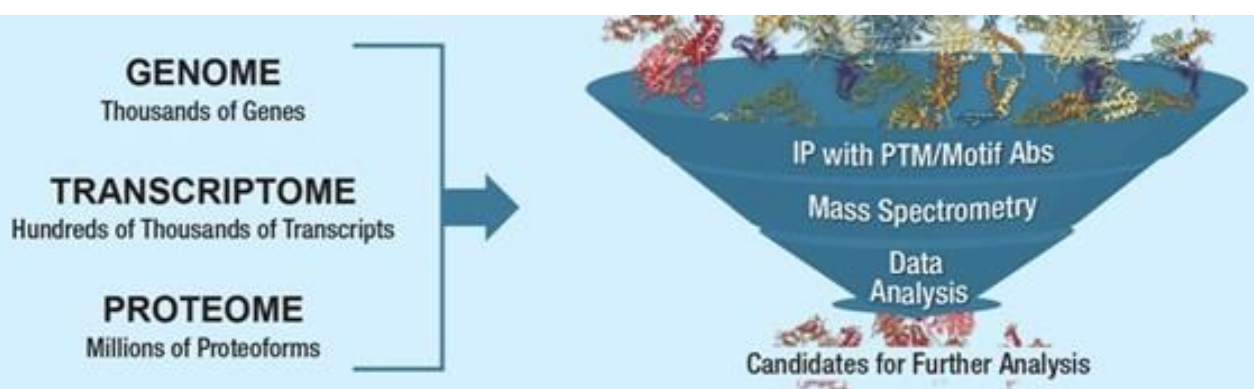

Join us to hear and discuss about the latest trends in antibody-based techniques and take a deep dive into the analysis of post-translational modifications.

Talk 1: *“Cell Signaling Technology tools to accelerate your research in Developmental biology/Neurobiology”*

Talk 2: *“Simplifying Proteomic Discovery Using PTMScan® Technology”*

Presenter: Maxime Jacquet, PhD, Field Application Scientist (EMEA) at Cell Signaling Technology (CST)

The length of each talk is approx. 20 min. We have a small gift for early birds and snacks for all.
