

Invitation to CST Seminars

Tuesday Sep the 27th, 2 PM

Medisiina D building, block 1

Join us to hear and discuss about the latest trends in antibody-based techniques and take a deep dive into the analysis of post-translational modifications.

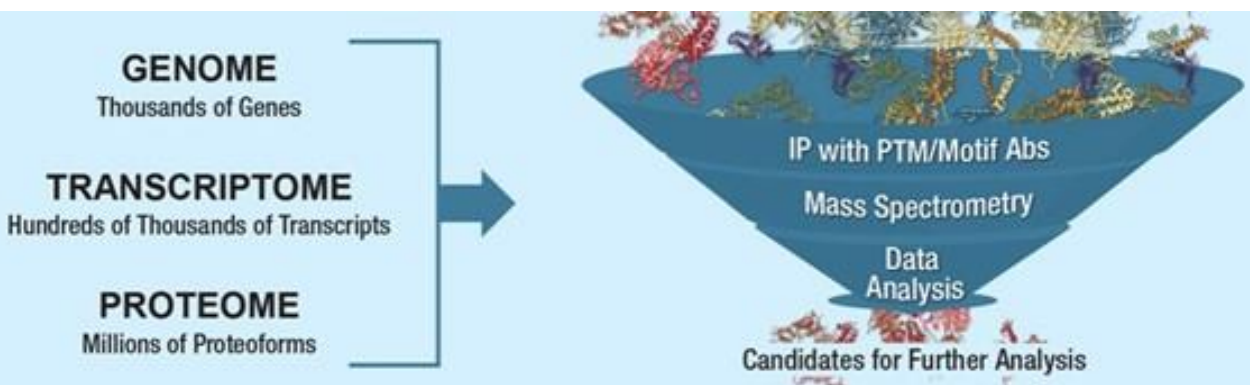

Talk 1: *“Cell Signaling Technology tools to accelerate your cancer research”*

Talk 2: *“Simplifying Proteomic Discovery Using PTMScan® Technology”*

Presenter: Maxime Jacquet, PhD, Field Application Scientist (EMEA) at Cell Signaling Technology (CST)

The length of each talk is approx. 20 min. We have a small gift for early birds and snacks for all.

Register for the seminars by email to Katja-Riikka.Louhi@bionordika.fi. Please mention if you have diet restrictions.
